

MASTER PROGRAM IN MANAGEMENT ENGINEERING: ADMISSION CRITERIA

To access this Master Program, candidates must hold a degree in any of the following groups:

Area of industrial engineering:

Industrial Engineer

Any degree providing access to the regulated profession of Industrial Engineer.

Degree in Industrial Technologies

Degrees within the industrial area without professional attributions: product design, industrial management.

Other engineering degrees

Other degrees

English language skills of the applicants are expected to attain, at least, level B2.1 (see equivalences in Table: <http://www.upc.edu/slt/acredita/examens-certificats-idiomes/certificats-idiomes-upc>) There will be a placement test for applicants who cannot provide evidence of having this level.

In the selection process, candidates will be sorted according to the following Admission Score:

$$\text{Admission Score} = \text{FIELD}^{(1)} + \text{NGE}^{(2)} + \text{CV}^{(3)}$$

where the partial scores are given by:

(1) **FIELD:** GROUP OF THE DEGREE THAT GIVES ACCESS TO THE MASTER PROGRAM

FIELD	SCORE
Industrial Engineering	2
Other Engineering Degrees	1
Other Degrees	0.5

(2) **NGE:** GLOBAL MARK

The global mark, NGE, is computed using the ECTS scale, as follows:

Sum of credits completed by the student, each multiplied by the value corresponding to the obtained mark according to the following table, and divided by the number of completed credits .

ECTS SCALE	A	B	C	D	E
SCORE	4	3	2	1	1
International Qualitative scale	Excellent	Very Good	Good	Satisfactory	Sufficient
Spain (remodeled studies)	Honour	Excellent	Notable	Pass	Pass
Spain(not remodeled studies)	10	9	8 - 7	6	5

Credits recognized without qualification are not considered in the computation of NGE.

For the new Spanish programs not adapted to the EHEA:

- The obtained score, in scale of 0-4, appears on the official transcripts.

For non reformed programs in Spain or foreigner plans not adapted to the EHEA:

- To compute the global mark, the achieved grades for the courses must be previously converted according to the above table. The Thesis will be considered as a subject as long as the official transcripts include a mark that allows including it in the computation of the overall average.
- In the case of properly stated quarterly or half-subjects, half of the subject will be computed.

(3) **CV:** CURRICULUM VITAE

Professional experience and curriculum vitae of the candidates will be taken into account. The assessment will receive a score between 0 and 0.25
